

“Speaking together!”

Familiarise yourself with the building blocks of a language and give yourself the edge when travelling abroad - take a foreign language to GCSE!

You can consolidate what you learnt at Key Stage 3 to make the best use of it and most importantly make yourself understood in a variety of situations, and increase your job prospects!

Not a great deal of challenging grammar is required and you gain a recognised level 2 qualification at the end of it all!

A bit of a language can make a big difference
